Introduction

Purpose

The purpose of this document is to describe the requirement specification for the web site "Regional Recipes".

The intended audience for this document is people who are interested in cooking.

First it is the contract between you and the client. Second it is for the developer of the site. Two primary goals are:
1. *Client gets a very good understanding of what you will be delivering.*
2. *Developer has a very good understanding of what they are going to create.*

Definitions, acronyms, and abbreviations

Sample for the client:
ER Diagram – a diagram to represent the data you want to save with your system
W3 Validation – refers to both Html and CSS validation tool provided by the W3c.org. the html validator is located at:
http://validator.w3.org/
with the CSS validator located at:
http://jigsaw.w3.org/css-validator/

Overall Description

This is a website about recipes from different regions. Viewers can click on this website and get inspirations. There is a subscription service where you can subscribe and get updates on the newest recipes available. Comments and suggestions are welcome regarding the website.

	Date : 11/03/17 – 12/8/17

Story Board

Specific requirements

1. *Title for main page*: *Regional Recipes*
2. *Meta Description*: *It is a website containing variety of recipes from six different origins. For each region, there is one recipe for breakfast, lunch, and dinner.*
3. *Meta Character set*: UTF - 8

4. *Logo*: *RR -*
5. *Main page photo*: *Put a link to a recipe on the first page.*
6. *Content can be found here*:
7. The goal is to have links to recipes from different regions with pictures attached. Make sure there is subscription service and more recipes can be added easily in the future. Include a page for about us so background information can be added.
